25 MILLION BONDS DEAD, TEN STANDS

Senate Refuses to Kill Road Issue - Municipal Slaughter House Bill Changed to Make Terms Optional

CALENDARS WILL BE CLEARED NEXT WEEK

Is Present Expectation - Earnest Endeavor to Secure House Passage of Mine Tax Bill Today

PHOENIX, April 24.—(Special)—There is good indication that the end of next week will see the calendars of both houses well cleaned and possibly in sight of an adjournment of the session, although an additional ten days from next Monday may be required if the house tomorrow passes the mine tax bill and Tax Commission Powers measure. That such will be done is earnestly being worked for tonight.

The senate today, by a vote of seven to eleven, refused to adopt a motion by Wood of Yavapai to kill the road bond bill but did adopt a motion to kill the reclamation work \$25,000,000 bond issue. The house spent most of the day reading the irrigation and drainage district bill but final action went over.

Senator Hughes in tonight receiving congratulations from his friends over his victory in the house on approval of the municipal slaughter house bill in committee of the whole. As now written the people, by vote, will decide whether the law shall be adopted by cities.

The Penal Code The house has sent to the senate the Penal Code in exactly the form Governor Hunt disapproves of. This is in face of the positive statement by the governor that he will again veto the bill if it is sent to him with the capital punishment clause intact. Many members of the house desired to put the capital punishment section in a separate bill, which would make possible a veto by the governor, if such was deemed wise, without the entire penal law being lost to the state as recodified just because of the veto. That element of the house, however, which has dictated the policy of the house, were insistent that the bill be passed exactly as it was passed at the last session, and such action was taken by the following vote: Ayres, Babbitt, Bail, Barker, Buchanan, Craig, Crofoot, Curry, Drennan, Ellis, Gonzales, Graham, Jacobs, Jacobson, Jones, Kane, Lynch, Mattox, Moore, Mr. Speaker, Nays, Brennan, Brooks, Donnan, Hall, Irvine, Johnson, Kerr, Lewis, Moore, Murphy, Whipple.

It seems probable that the senate will leave the capital punishment section in the bill but modify the same by providing that a Superior Judge of any county of the state, or any county attorney of the state, or, possibly, the member of any jury having convicted a man for murder may certify to the governor an application for a reprieve of the person, in which case the execution may be exercised such right and save a convicted fellow from death. Anyway, there is a movement on foot in the senate to give Governor Hunt an "out" on the situation which confronts him without abolishing capital punishment in the penal statute.

Gleeson-Costello Case Of all the legislation which has been before the Supreme court of the state none has attracted the array of legal talent as did the case of Gleeson vs. Costello Estate, an appeal from Cochise county. In the lower court the Gleeson interests were given a judgment, equal to one-third, in a mine sale involving a sum of over \$1,000,000.00. The case was appealed and submitted. Col. Ben. Goodrich, and the Hon. Jon. Scott, of Los Angeles, together with J. Mason Rose, of the firm of Ellwood and Rose, Bisbee, appeared for the Costello Estate and participated in the argument, and Senator G. S. Ives represented the interests of Gleeson. Justice Cunningham having participated prior to his election to the Supreme court in certain phases of the litigation was disqualified from sitting in the case. McAllister of the Graham county court was called.

No "Pen" Investigation By a vote of seventeen (17) to twelve (12) Governor Hunt was denied the right to have an investigation of the financial situation at the state prison investigated in the house yesterday.

BRYAN LEAVES CAPITAL FOR SACRAMENTO

WASHINGTON, April 24.—Secretary Bryan left at 6:45 to-night over the Pennsylvania for Sacramento, where on Monday, he will begin consultations with Governor Johnson and the California legislature in an effort to frame anti-alien land laws that will not conflict with the treaty obligations.

ALTITUDE RECORD BROKEN

ANNAPOLIS, April 24.—The by drop altitude record was broken twice today. Lieut. P. M. L. Belenger, marine corps, ascended 3716 feet in a Curtiss machine. Later in the day ensign Victor Herbatos climbed 4450 feet in a Wright machine. The former record was 3590 feet, made by Lieut. John H. Towers of the navy.

SUFFRAGETTES USE BOMB

NEWCASTLE, April 24.—A bomb exploded in the offices of the county council tonight. The damage was slight. The explosion is attributed to suffragettes.

WARMING UP OVER TARIFF

House Debate Yesterday Brought Declaration from Democrats They Could Not Be Goaded Disloyalty

WASHINGTON, April 24.—Republicanism was described as dead, damned and lost forever and democracy accused of rushing to clean it up and make it a progressive party, while the progressive party was characterized as a "branch shot from the dead republican trunk" in a three-cornered tariff debate in the house today.

Representatives Hamilton and Fordney, of Michigan, took up the cudgels for the republican minority the latter bitterly assailing the sugar schedule and the free listing of lumber and wool as ruinous to American industry. Representative Hamilton ridiculed the democrats and criticized the president.

"With the cock sureness of a man accustomed to instruct the immature mind of youth," he said, "the president in his address to congress undertook to settle in eight minutes problems that have vexed the minds of statesmen for more than a hundred years."

Representative Hinebaugh, of Illinois and Representative Hullings of Penn., attacked the Underwood bill in behalf of the progressive party. Representative Hullings declared the bill would not curb monopoly nor reduce the cost of living and predicted that if President Wilson could convince the people that his tariff ideas were right the democratic party would remain in power for the next twenty years.

Representative Hammond, of Minnesota and Representative Peter, of Massachusetts, defended the bill in behalf of the democratic party and means committee asserting it was an honest effort to lighten the burden of the people and in that it stripped the tariff of discriminations and privileges to a favored few.

New democrats, among them Representative Aswell, of Louisiana, Quinton, of Mississippi and Barkley of Kentucky, expressed fealty to the party and the bill and defied the progressives to create discord in their ranks.

BRUSSELS, April 24.—A plenary convention of the social labor party voted today for immediate resumption of work by strikers, vote being 4 to 1 for peaceful settlement.

M. Vanvervelde, socialist leader, in a long speech, carefully explained the important advantage gained by the vote in the chamber of deputies which opened the way to revision of the constitution desired by all workers.

Delegates of the miners' union and textile workers and weavers opposed a settlement, declaring their unions did not consider enough had been gained.

There were no demonstrations of any kind. A general resumption is expected tomorrow, except among miners, who may refuse to work for a time.

The war minister ordered the withdrawal of troops as soon as he learned the decision of the convention. There is rejoicing in business and industrial circles.

CALIFORNIA SAYS MUST BE SHOWN FIRST

Gov. Johnson and His Legislature Await the Coming of Secretary Bryan with a Chip on Their Shoulder

MUCH GRAVITY WILL HAVE TO BE POINTED

Otherwise State Will Pass Strong Anti-Jap Measure—President Wilson Says Attitude of Japanese Quiet

SACRAMENTO, April 24.—Not dignity but the dignity of California is at stake in the controversy over the anti-alien land law, according to Governor Johnson, and if the plans of the majority here give offense to the government at Tokyo the California executive believes the state from blame on the ground that federal statutes long since drew the line which he state now seeks to apply.

That restriction applies to subjects of Japan or any other nation is not the fault of California, according to the governor and such a law being drafted tonight by Senator Thompson. It will be in print before the arrival of Secretary Bryan next Monday. It will be known as the alien land act and will apply solely to members of certain races that are described in federal laws in judicial decision as ineligible to citizenship.

If the Johnson view is conceded by Bryan in a conference to be held with the governor and members of the legislature there is little doubt that he Thompson bill will pass unless the secretary of state's reason is of such great urgency that he can convince the leaders here that such action by the California legislature would precipitate a grave crisis.

WASHINGTON, April 24.—The president let it be known today that he considered the attitude of the Japanese government in arguing its case as proper and friendly. There has been no note of antagonism, despite reports to the contrary, and the position of the Tokyo government has been one of respectful agency that no discrimination be made against their people. Inquiries as to what Japan would consider, discrimination brought forth the ultimatum from President Wilson that the eligibility of Japanese to citizenship is still a debatable question and it would be difficult to define just what would be construed discrimination.

MISSIONARIES PROTEST

TOKIO, April 24.—American missionaries of all denominations, a number of 70 adopted a resolution today "deploring discriminatory legislation" and will ask California and all missionary bodies of the United States to "oppose the action as contrary to friendship and their interests."

CHINESE HEARD FROM

SACRAMENTO, April 24.—The first protest against the alien land legislation from the Chinese in this state has been received by the legislature from the Chinese Consolidated Benevolent association otherwise known as the Chinese Six companies. It reads in part "as domiciled Californians we protest this state's due share of Chinese trade can not be secured by legislation that humiliates us. It brands us with infamous inferiority and shames us before the nation. We insist that the proposed legislation is unfriendly and inhospitable to the people of the youngest republic in the hands of the greatest republic in the world."

COMPENSATION BILL PASSES

SACRAMENTO, April 24.—Senator Boynton won a sweeping victory in the senate today over his opponents when the workmen's compensation bill, one of the administration's important measures, passed to second reading with minor amendments suggested by proponents of the bill and was sent to the printed for engrossment and ordered returned as soon as possible for consideration and final passage.

METAL MARKET

NEW YORK, April 24.—Copper steady. Electrolytic unchanged. Copper arrivals 1150 tons, exports this month 74,544 tons. London copper easy.

35 BODIES RECOVERED MANY REMAIN IN MINE

PITTSBURGH, April 24.—35 bodies have been taken from the Cincinnati mine at Pitsburgh, Pa. Eight miners are unaccounted for tonight and rescuers are unable to reach the inner workings on account of gas, water and debris. 192 entered the mine yesterday. Seventy-five are known to have made escape.

ELKS SELECT PHOENIX

GLOBE, April 24.—Phoenix was selected tonight as the next convention place by the Elks of Arizona.

WAGNER'S KNEE

PITTSBURGH, April 24.—An X-ray examination of the injured knee of Hans Wagner, of the Pittsburgh Nationals, disclosed nothing more than a bad bruise. Wagner will play ball within two weeks.

Governor Major of Missouri, vetoed a bill relieving accident insurance companies from liability for deaths by suicide.

Admitted to have seriously stabbed Herbert H. Lerner in a duel, William J. Rounds, Jr., a case in the Massachusetts house, was held in \$500 bail.

WILSON CALLS \$ DIPLOMACY

American Government Not to Be Involved in Settlement of Private Disputes. Is Now Declaration.

WASHINGTON, D. C., April 23.—Intimation of far-reaching changes in the diplomatic service, particularly in Latin-America, came today from the White House when it was announced that Henry James had been recalled from the mission given him by the Taft administration to act as arbitrator between the Government of Ecuador and the Guayaquil and Quito Railway Company, an American corporation, in certain claim disputes.

It was said that while there was nothing in the recall of Mr. James to reflect upon him personally, the policy of the administration would be not to have the American Government directly involved in the settlement of private business. It was intimated at the same time that persons in the diplomatic service who might have large property or financial interests in the countries in which they are residents probably would not be retained in those places.

A sweeping investigation is under way in the State Department in line with the statement about Latin American affairs issued recently by President Wilson, ascertaining that any previous influence that might have been exerted by the American Government for the promotion of loans or private enterprises would be renewed.

In this connection, Secretary Bryan took under consideration today the status of proposed treaties between the United States and Nicaragua, Honduras and Guatemala. The impression exists that these conventions have been ratified by the Senate, but which had the sanction of the Taft administration would be dropped.

Generally these treaties looked to a more or less direct American supervision over the customs collected in the countries concerned as a guarantee of American investments. One of the Nicaraguan treaties also provides for the payment of \$2,000,000 to Nicaragua in return for a franchise to construct an inter-oceanic canal in that country, a provision intended to head off possible competition with the Panama Canal.

Much interest was manifested today in the action of Secretary Bryan in beginning consideration of these treaties and a further definition of the administration's policy toward Latin-American republics which have been seeking the support of the United States in improving their financial standing in expected shortly.

IOWA ELECTRICIANS MEET

WATERLOO, Ia., April 24.—A large attendance marked the opening here today of the thirteenth annual convention of the Iowa Electrical Association. The forenoon was occupied with the work of organization. At the afternoon session E. H. Walker of Dubuque addressed the association on the subject of welfare work and the relations between employers and employees. The convention will conclude tomorrow.

SHAKESPEARE'S MEMORY

LONDON, April 24.—In accordance with time-honored custom the 349th anniversary of the birth of Shakespeare was observed today at Stratford-on-Avon, the birthplace of the immortal bard. The old-world town was the scene for hundreds of representatives of Shakespearean societies throughout the United Kingdom, among the number being many celebrated literary and dramatic lights.

VICTIMS OF FEMINE VAMPIRES

Attorney Numbered Among Alleged Wealthy Los Angeles White Slavers Declares Men Are the Slaves

CITY THEORETICALLY CLEAN IS MORAL MIRE

Abolishment of Restricted District at Bottom - Tells of Lures - Millionaire Bixby Not Yet Located

LOS ANGELES, April 24.—"Men, wealthy men, and not young girls are white slaves in Los Angeles," the slave of women that say "J. P. Fleming, attorney, declared today after testifying for 45 minutes before the grand jury, which is investigating alleged white slavery in Los Angeles. Fleming denounced Mrs. Josie Rosenberg, alleged chief promoter for "millionaire protectors," of the Jolly hotel, who were his picture in her watch. In his eyes she is the head of a feminine Camorra that lived off wealthy men who slipped, even for a night, and played the "good fellow" in cafes. "Trifling was after women from them," he said, "by pain of exposure."

Fleming is a former assistant district attorney and was in charge of the city prosecutions at the police stations. In his time there was a segregated district. That was after a segregated district, making the "city what has since been called chemical" pure.

Fleming said today that if the people knew of the existing moral conditions and the operations of the countless women blackmailers, they would rise in arms.

Geo. H. Bixby, the Long Beach millionaire, who was summoned as a witness and for whom a bench warrant was issued, is still missing.

HEALTH BUREAU FEELS PEEVED

WASHINGTON, April 24.—Communication between the public health service bureau here and Dr. Frederick F. Friedman, the Berlin physician, who claims to have discovered a tubercular vaccine, has practically ceased, according to information given out today at the health bureau.

Surgeon General Blue said that Friedman had not replied to letters written him by the bureau and the department was merely waiting results shown by patients already treated.

Experts are continuing to observe patients in New York and elsewhere who Friedman inoculated with his vaccine and laboratory experiments with the vaccine culture are being continued.

No direct reply has been received by the health authorities to the request for more vaccine or information regarding its manufacture nor has there been a reply to a letter recently sent regarding the "halting progress" of the demonstration of the alleged curative value of the discovery.

JACK JOHNSON TO THE BAR

CHICAGO, Ill., April 24.—After numerous delays and postponements Jack Johnson, the negro pugilist, was arraigned today before Judge Carpenter, in the United States District court, to be tried on a charge of smuggling. The indictment is based on an alleged act of Johnson in bringing a diamond necklace into this country from England without paying duty. The pugilist is also under indictment on a charge of violating the Mann White Slave Act. His trial on this charge is set for early next month.

CAROLINA VETERANS

AIKEN, S. C., April 24.—The battle scars flags of the old Confederacy, festooning the portraits of Gen. Robert E. Lee and other leaders, were freely in evidence here today for the annual reunion of the South Carolina division of the United Confederate Veterans. The initial session was held this morning, with Gen. B. H. Teague, the divisional commander, presiding. The reunion will last two days and will be marked by several elaborate features of entertainment.

MARK SMITH'S INQUIRY

RESOLUTION ADOPTED WASHINGTON, April 24.—The senate passed today Senator Mark Smith's resolution calling on the president to report the claims of American citizens for loss of property in Mexico and the number of Americans killed and imprisoned there since the beginning of the Mexican revolution.

TELEGRAPH BRIEFS

The Illinois Anti Saloon League claims recent elections in that state made 70 per cent of its area, inhabited by 24 per cent of its population "dry."

A heavy police guard attended the funeral of Ralph Pine, a striker killed in recent disturbances at Harrison, N. Y., and 2000 persons marched several miles to the grave.

Tentative plans have been made for giving grand opera in English and Italian in the public parks of New York, beginning next month.

A jury at Van Wert, Ohio, convicted Ralph Hoover, a young farmer, of second degree murder for the death of his wife on circumstantial evidence.

'FRISCO POLICE WITH CON MEN

Investigation Develops Sensational Charges Involving Hiring of Men to Do Murder by Detective.

SAN FRANCISCO, April 24.—Investigators are conducting an inquiry based on charges that bunco steers, now under arrest, and eight members of the local police department, suspended today by Chief of Police White were in collusion. The sensational statement is made by one of the convicted men that a detective hired four assassins to murder him. The charge was made by Michael Gallo, serving a term at San Quentin for grand larceny.

About the time Gallo was telling his story confederation was being received in a voluntary statement from Maurice de Martin, another member of the gang recently convicted and now waiting sentence. The eight accused officers were called before the police commissioners today for an informal hearing of the charges.

BURY "CENTURY" CHEST

OKLAHOMA CITY, Okla., April 24.—A "Century" chest, not to be opened for one hundred years, was buried here today as a feature of the Oklahoma Natal Day celebration. The Ladies Aid Society of the First Methodist Lutheran church, of which the chest was buried, is to remain beneath the church floor to remain there until April 23, 2123. In the chest were placed many of the common things of today for comparison with things one hundred years hence. Among them were articles of women's dress, man's apparel, copies of the present laws, and a message of greeting to the descendants of the Cherokee and Choctaw Indians, who were the original inhabitants of Oklahoma.

Mr. Bonillas stated last night that the trouble at Cananea was most unfortunate for his state. He said from the investigations he had been able to make and after talking with Governor Pesquiera he feels sure that trouble-making agitators were responsible for the unreasonable state of mind of the more ignorant at Cananea, who it was hard to convince that they were not the victims of a trick by which many of them were to lose their employment and all to suffer a cut in wages.

Concerning the manner in which Mr. Douglas was fired out of Cananea Mr. Bonillas expressed his profound regret that such an unfortunate thing should have happened. He stated that Mr. Douglas stood high in the estimation of the officials of Sonora and is regarded highly as the friend of the state and its citizens by all who have in the past known him and observed his efforts to benefit the Mexican people.

RAILROAD RESUMES OPERATIONS

Yesterday, the Southern Pacific de Mexico was turned back to the company for operation and trains are now ready for operation in northern Sonora and as far south as Empalme. Already some supplies have been taken to Cananea and if the mob there can be subdued it may be expected that full operation will be gradually resumed.

Bullion Arrives

One million dollars in copper bullion from Cananea was crossed to the United States yesterday at Naco, having been brought to the line the night before. This is the accumulated output since train service was discontinued five or six weeks ago. The Cananea company was operating four blast furnaces yesterday and made 58 tons of copper. Only these four furnaces have been operated during the past month.

George Young, secretary of the Cananea Copper company, arrived in Bisbee yesterday evening for a conference with the company officials. He told of a conference yesterday morning with the dissatisfied men in

Turks claim surrender Sultani due exhaustion provisions. Term included embarkation with arms, etc.

HOPE RISES OF CANANEA SETTLEMENT

Populace, Misled by Agitators, May Be Brought from Its Mob Rule Attitude by Continued Counsel

MILLION DOLLARS IN COPPER BROUGHT OUT

President Sonora Congress Here - Declares James Douglas Esteemed in State - Railroad Back to S. P.

Yesterday was one of conference between representatives of the Sonora state government and the officials of the Cananea Consolidated Copper company with no definite results, though in the evening there was an opinion prevailing that conditions at Cananea were not as hopeless as during the two previous days.

Cananea has since Monday been under the domination of a mob; not only has this mob spirit driven from the camp the directing head of the mining company, but it has refused to take counsel from or be controlled by the governor of Sonora, who reached Cananea on Wednesday and is still there, but so far has been unable to restore the excited populace to reason. They are still making the demand that the entire plant of the company be again set in motion, with all the old employees restored to their positions or that the entire plant be closed. Of course the company cannot submit to such dictation from what is a practical mob. If this mob spirit continues there can be, but one result and that is the closing of all work. On the other hand if the state authorities are unable to subdue and eliminate the spirit of the mob, then it is possible that the company will continue its partial operation and gradually get the enterprise back into full action. This is about what the situation was last night at the end of many hours of conference.

Bonillas Here Hon. Ygnacio Bonillas, president of the Sonora congress arrived in the city yesterday, coming from Douglas where he went the night before from his home in Nogales. Mr. Bonillas came here as the representative of Pesquiera with whom he conferred at some length yesterday afternoon over the telephone at Naco.

Mr. Bonillas stated last night that the trouble at Cananea was most unfortunate for his state. He said from the investigations he had been able to make and after talking with Governor Pesquiera he feels sure that trouble-making agitators were responsible for the unreasonable state of mind of the more ignorant at Cananea, who it was hard to convince that they were not the victims of a trick by which many of them were to lose their employment and all to suffer a cut in wages.

Concerning the manner in which Mr. Douglas was fired out of Cananea Mr. Bonillas expressed his profound regret that such an unfortunate thing should have happened. He stated that Mr. Douglas stood high in the estimation of the officials of Sonora and is regarded highly as the friend of the state and its citizens by all who have in the past known him and observed his efforts to benefit the Mexican people.
